What is Ride Club?

Mirage Amusements brings "Rider Club" to you. Rider Club is a fun and exciting place for kids to enjoy different types of bicycles, scooters, carts, plush animals and LED-lit rides. It's a great way for kids to get exercise, have fun, and learn about different types of bikes. Some of the activities that may be available at Rider Club include:

Riding lessons: Kids can learn how to ride a bike or improve their existing skills with the help of experienced instructors.

Group rides: Kids can join in on group rides with their friends, exploring the local area and having a great time together.

LED-lit rides: Some Rider Clubs may offer rides with LED lights and special effects, adding extra fun to the experience.

Variety of bikes: Rider Club may have a wide selection of bikes for kids to choose from, including mountain bikes, road bikes, and more.

Overall, Rider Club is a great place for kids to get active, have fun, and learn about different types of bikes in a safe and supportive environment.

Plush Animals Ride

Plush animal rides are amusement rides for kids. Kids sit on top of the Plush Animal Ride and put in efforts to make it move forward.

They are often designed to mimic the movement of the animal they are shaped like, such as rocking or swaying back and forth.

Plush animal rides are a popular choice for children and can provide a fun and memorable experience for kids of all ages.

The Tron Ride

The Tron ride is a type of amusement ride that is inspired by the Tron franchise and features bright LED lights in various colours.

The LED lights are used to add to the visual appeal of the ride and create a unique, futuristic atmosphere.

These go up to 3kmph. Kids won't be able to control their excitement for this ride.

LED Rides – 2-Seater

LED 2-seater rides for kids are a type of amusement ride that is typically small and is powered by electricity, with LED lights adding to the visual appeal

The bike is made of strong plastic and has two seats so that a parent can ride along with the child.

For safety, these bikes have auto brakes & technology that makes them easy to ride.

Ride with your parent or loved ones.

London Bus

London bus ride is a ride that is designed to mimic the experience of riding a London bus. It is usually made in the shape of a miniaturized version of a London bus and is designed to be ridden by kids. London Bus is typically for amusement parks suitable for any space, and other family-friendly locations.

Kids Tram

Tram for kid's ride is made in the shape of a miniaturized version of a tram and is designed to be ridden with the help of our driver. Kids love to sit in tram rides because they offer a fun & interactive way to play. They make friends and enjoy with their siblings as well. They can get out of the house and have some exciting new experiences and make new friends.

Drivers drive the tram and kids sit behind. They enjoy the toy ride and make the most of the area they are there with their parents.

LED Train Ride

LED train in an animal shape that is fun for both kids and adults, so parents can ride with their kids and have fun. They move quickly and are safe.

The train seat is soft and padded, which makes the ride comfortable and fun. Kids are instantly drawn to the attractive design and vibrant color. Children's hearts will be filled with awe and delight.

It is Family friendly ride.

G63 Kids Cart

These strollers for kids are high-end strollers designed to look like luxury cars.

They are typically made with premium materials and may feature additional features & amenities such as adjustable handlebars, padded seats, and storage compartments.

These strollers are designed for parents who are looking for a stylish & functional way to transport their children.

Bicycles

We have bicycles for kids in a wide range of colours and can be a great way to add some fun and personality to a child's biking experience. Some popular colours for kids' bikes include: Blue: A classic and timeless colour that is perfect for boys or girls.

Scooters

Electric and non-electric scooters are both popular options for kids looking for a fun and convenient way to get around.

1. Electric scooters, are powered by a small electric motor and a rechargeable battery.
2. Non-electric scooters, are powered by the rider's own muscle power and Non-electric scooters are a great option for kids who want a simple and low-maintenance mode of transportation.
3. Golf cart scooters for kids are a type of electric scooter that are designed to look like miniature golf carts and are suitable for children to ride.
